

# SAFETY AND HEALTH PROGRAM SUPPORT AND DEVELOPMENT

## ➤ PROBLEM TO SOLVE:

Navigating complex and changing laws, engaging employees, managing resources, and identifying resource constraints can cause difficulties in health and safety compliance and effectiveness. Our services will help engage your team to learn best practices when developing a health and safety program.

## ➤ BENEFITS:

- ✓ Reduces workplace accidents, injuries, and illnesses
- ✓ Promotes physical and mental well-being for employees
- ✓ Reduces downtime and disruption due to fewer incidents
- ✓ Decreases costs
- ✓ Improves regulatory compliance

## ➤ SOLUTIONS:

### ● Workplace Hazard Assessment

Conduct risk assessment to identify hazards and gaps. Recommend actions to mitigate risks.

### ● Safety and Health Policy Development

Create or revise safety policies, manuals and procedures tailored to your needs that are compliant with regulatory requirements

### ● Training

Provide workshops on roles and responsibilities and best practices in maintaining workplace safety

Training Within Industry Job Safety – Trains to analyze the events leading to accidents and hazardous situations, identify root causes, and take action to reduce incidents.

### ● Audits and Inspections

Perform workplace inspections to monitor compliance to avoid fines, penalties, or legal action

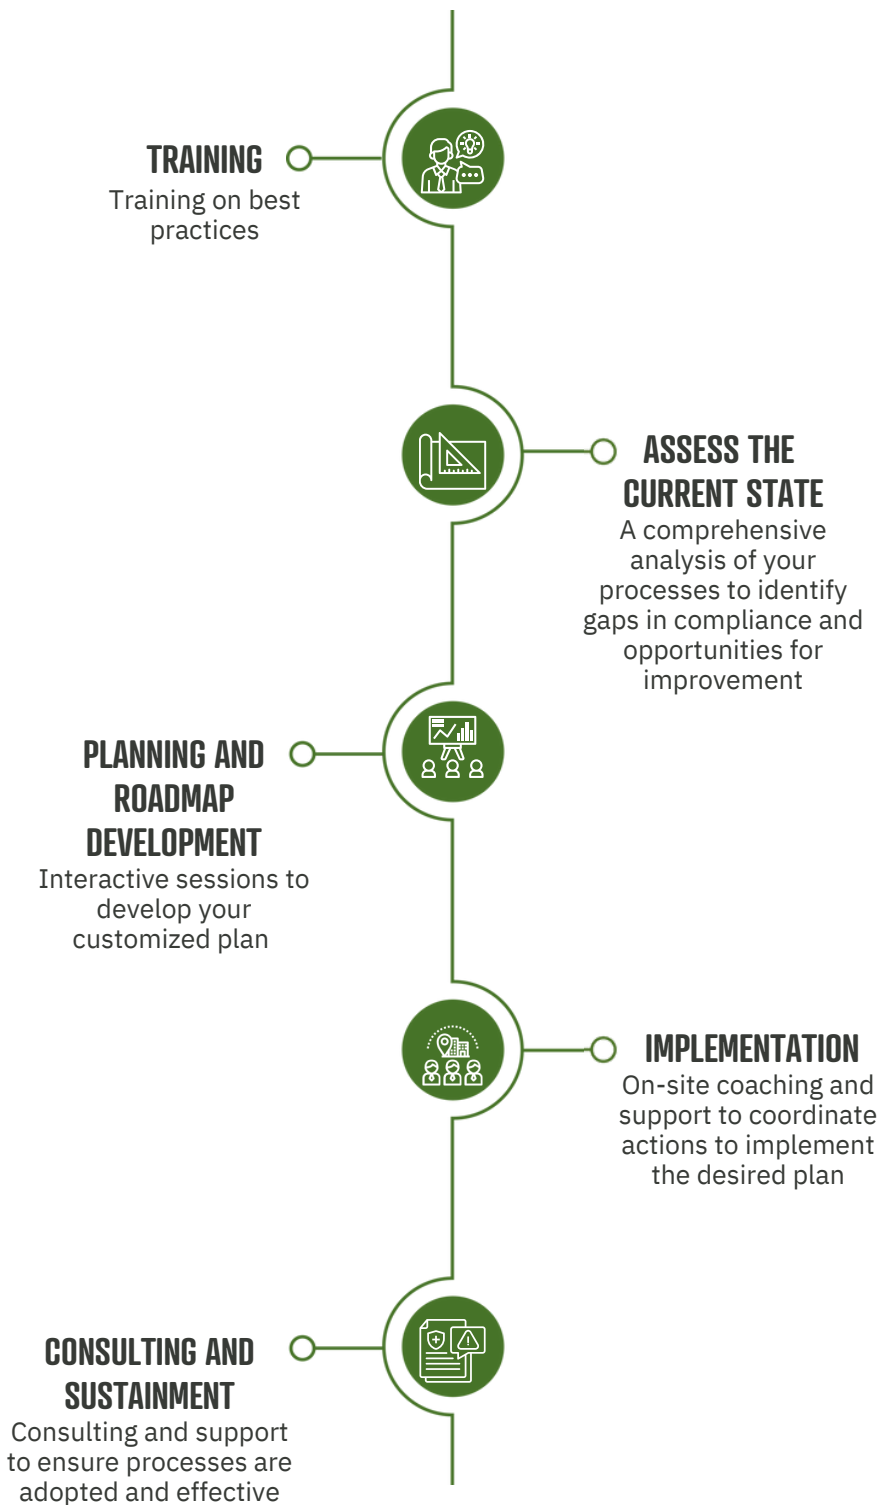

### ● Incident Investigation

An unbiased analysis of workplace accidents, near-misses, or illnesses to determine root cause and recommend preventive actions
