CYBERSECURITY MATURITY MODEL CERTIFICATION TRAINING (CMMC)

WORKSHOP DESCRIPTION:

This 4-hour CMMC workshop provides a practical, real-world overview of cybersecurity and the Cybersecurity Maturity Model Certification (CMMC). The training covers foundational cybersecurity hygiene, NIST 800-171 and CMMC concepts, and industry best practices.

WHAT PARTICIPANTS WILL GAIN:

Participants will engage in hands-on activities to learn how to apply NIST 800-171 requirements within their organization. With expert instruction and case studies, attendees will gain the skills needed to improve cybersecurity hygiene and meet the advanced security and compliance requirements for CMMC Level 1 & 2 certifications.

A certficate of completion is provided.

Classroom Training	Remote training

TOPICS INCLUDE:

- ✓ Cybersecurity and Compliance Introduction
- ✓ Cybersecurity Maturity Model Certification (CMMC) Introduction
- ✓ Challenges, real-life case studies, and sucssess stories
- ✓ Planning your CMMC path to security and compliance
