

CYBERSECURITY FOR EXECUTIVE LEADERS

WORKSHOP DESCRIPTION:

The objective of this training is to equip executive leaders with the knowledge and skills necessary to understand, manage, and lead their organizations through cyber threats. This training will help top executive leaders to create cybersecurity-aware culture and ensure they can effectively oversee and implement cybersecurity measures.

WHAT PARTICIPANTS WILL GAIN:

This 4-hour workshop is designed specifically for executive leaders such as Chief Executive Officers and Chief Operating Officers. A certificate of completion is provided.

Classroom Training

Remote training

TOPICS INCLUDE:

- ✓ Building your holistic cybersecurity team
- ✓ The importance of an IT health check and operational resilience
- ✓ NIST 800-171 a framework for cybersecurity for all companies
- ✓ Understanding risk and potential mitigation
- ✓ Key questions to ask your team to ensure all is in order
- ✓ Understanding important decisions executives need to make

LEARNING OUTCOMES:

At the end of this training, participants will be able to:

- ✓ Review processes and protocols to ensure cybersecurity processes and protocols have been implemented correctly
- ✓ Guide teams to identify and mitigate cybersecurity risks
- ✓ Make informed decision regarding cybersecurity to protect from potential threats
- ✓ Lead teams to develop and maintain robust cybersecurity practices
- ✓ Manage cyber crises and communicate incident information to customers
