

APPLY TODAY

# CYBERSECURITY CONSORTIUM GRANT OPPORTUNITY

*Best Practices, Training, and Implementation of  
NIST 800-171 Controls. Cohort curriculum designed to  
Create CMMC Level 2 Awareness*

COMMITMENT NEEDED BY: MAY 1, 2022

TRAINING: AUGUST 2022 - MAY 2023

As the Washington affiliate of NIST MEP (Manufacturing Extension Program), Impact Washington is an extension of NIST and a trusted advisor to deliver cybersecurity consulting to small and medium-sized manufacturers.

**Impact Washington** is partnering with **Seattle Colleges** to provide this opportunity.

**Who should apply:**

- Manufacturers looking to reduce risk and improve Cybersecurity infrastructure and hygiene.
- Manufacturers in the Department of Defense and Government supply chains.
- Any manufacturer that handles sensitive information.

**Why it's important:**

NIST SP 800-171 compliance must be met by anyone who processes, stores, or transmits potentially sensitive information (CUI) for the DoD, GSA, NASA, and other federal or state agencies

**Training models and time commitments:**

- Shared consortium training (170 hours)
- Direct application to each company's cybersecurity ecosystem (50 hours)
- Awareness training for your entire company
- Homework (50 hours)

**Training outcomes:**

- Understanding of NIST 800-171 cybersecurity best practices
- Implementation in your company's ecosystem
- CMMC Level 2 awareness

**Cost:** \$2,500 per attendee, payable upon signing Letter of Intent. It's suggested that 2 attendees participate. Letter of Intent Form provided by Seattle Colleges.

**Advisor/Trainer:** Cyberstreams CMMC-AB Registered Practitioner [Chris Wiggins](#)
